Business Systems: Requirements Gathering, UAT, Test Script Development, Process Documentation
CRM and Enterprise Systems: Salesforce, SAP CRM, Salesforce Data 360, Agentforce
Analytics and Productivity: Tableau, Microsoft Excel, Microsoft Access, Microsoft PowerPoint
Programming and Databases: Python, SQL, MySQL, PHP, HTML, CSS

EXPERIENCE

IT Intern, Salesforce CRM June 2026 – August 2026
Konica Minolta Business Solutions U.S.A., Inc. *Ramsey, NJ*

- Gather business requirements and translate them into technical specifications supporting Salesforce Data 360 and Agentforce implementation, including user acceptance testing
- Develop test scripts, documentation, and training materials; assist with user administration, data integrity, and access controls
- Demo Salesforce, Agentforce, and Data 360 features to sales teams, walking through capabilities and supporting adoption
- Support Salesforce applications for more than 1,000 sales representatives and managers nationwide, troubleshooting user issues and maintaining system performance
- Participated in an Agentforce workshop at Salesforce Tower in NYC, implementing and activating an Agent and subagents

Processing and Reporting Intern June 2025 – August 2025
BMW Group U.S. *Woodcliff Lake, NJ*

- Built a Python and Excel model to review 25,000+ warranty claims and flag 300 potentially erroneous submissions targeting dealerships with prior erroneous claims
- Built a Tableau dashboard of flagged claims by region and vehicle model to improve review efficiency and accuracy
- Used Python and Tableau to transform warranty claim data into actionable insights, automate reporting workflows, and build dynamic dashboards highlighting key repair and cost trends
- Analyzed cost drivers and financial impact of warranty trends to support budget planning and strategic forecasting

Senior Member Experience Attendant August 2020 – Present
White Beeches Country Club *Haworth, NJ*

- Manage golf operations and scheduling for 600 members and guests while inspecting equipment to ensure safe course operations

PROJECTS

Salesforce Data 360 and Agentforce Solution Project
Konica Minolta Business Solutions U.S.A., Inc.

- Gathered business requirements from stakeholders to identify needs and use cases for Salesforce Data 360 and Agentforce
- Translated business needs into test scenarios and performed functional and user acceptance testing to validate solutions
- Delivered Data 360 and Agentforce demos to sales teams, showing how the technology could support real business needs

Password-Protected Device Repair Database Portal
I308 Information Representation

- Built a password-protected PHP/MySQL portal allowing users to run five interactive queries against device-repair data and view results in structured HTML tables
- Developed parameterized SQL queries to filter repairs by status, device type, and cost range, and calculate repair volume, total revenue, average repair cost, and average repair duration
- Implemented session-based authentication, login/logout functionality, page-level access controls, and prepared statements to protect application pages and process user-selected query parameters

ACTIVITIES & LEADERSHIP

Business Analysis and Intelligence Network September 2024 - Present
Founder

- Founded a 30+ member club focused on Business Intelligence, Project Management, and Business Consulting; instruct members in applying Tableau and Python to solve business problems and drive data-driven decisions.

Phi Delta Theta Fraternity February 2024 - Present
Judicial Board Member

- Develop and enforce Fraternity Council rules to ensure the safety and well-being of all members; managed fundraising including Live Like Lou for ALS, which raised over $80,000 in 2024.
